

## **Emeritus Membership:**

The Emeritus Membership level will be available to members starting November 1, 2020, and will be a rate of \$45.00/year. Please contact the IBANGS administrator ([administrator@ibangs.org](mailto:administrator@ibangs.org)) for a discount code.

To be eligible for this membership level you must be retired from an academic or industry research position. Emeritus membership will cost 33% of the full member rate or the cost of the electronic access to the society's journal, whichever is less. Emeritus members will have the same benefits as a regular member including:

- Reduced registration costs for IBANGS annual conferences.
- Eligibility for society career awards at all levels.
- Career and professional development opportunities.
- Serve on IBANGS committees.
- Nominate, vote, and run in IBANGS elections
- Submit scientific symposium proposals or serve on the Program Committee and have a voice in the selection of scientific symposia presented at the annual meeting.
- Free and unlimited advertising in the society newsletter.
- Network, socialize, and collaborate with other scientists working in neurobehavioral genetics.
- Subscription to the Society's premier journal: *Genes Brain and Behavior* (G2B) and reduced page charges for papers published in G2B. Scientists in eligible countries may access the journal via [Research4Life](#)
- Full membership in the Federation of European Neuroscience Societies (FENS).
- Complimentary subscription to the online version of the FENS journal, *The European Journal of Neuroscience*, and reduced cost subscription to the print version.
- Participate in shaping the future of neurobehavioral genetics.
